

# GEM IV

## Bench Top Automated Optical Inspection for SMT Inspection

### GEM IV

The **GEM IV** AOI system features a revolutionary small, lightweight inspection solution that is flexible for SPI, Pre-Reflow, Post-Reflow or Post-Wave inspection.

Accommodating boards up to 10" x 15" the GEM IV now offers unsurpassed, high-performance and high-resolution capabilities previously only available with MVP's existing in-line systems. With standard Z-Axis and high-resolution optics, the GEM IV represents a breakthrough in tabletop inspection by providing comprehensive solutions to complex inspection challenges.
